### Summary

I'm a Frontend Developer focused on continuous self-improvement. For over 5 years, I've been actively involved in both web and mobile projects. In addition to core technologies like **HTML5**, **CSS3**, **Sass**, and **JavaScript**, I develop applications using **React**, **TypeScript**, **Next.js**, and **Redux**. On the UI side, I create engaging user experiences with libraries such as **Tailwind CSS** and **Bootstrap**. On the mobile side, I build **iOS** and **Android** apps using **React Native** and **Expo**. I deliver integrated solutions with **REST APIs** and **GraphQL**, and manage backend connections using technologies like **MongoDB**. I use tools like **Git/GitHub**, **Bitbucket**, **Jira**, and **Confluence** to run projects in an organized and transparent way, and I place high value on team collaboration and effective communication.

### Education

2018  
Bachelor's degree - Recreation  
Anadolu University

2025  
Associate's degree - Computer Programming  
Anadolu University

### Skills

-HTML,HTML5  
-CSS  
-SASS, SCSS  
-TAILWIND  
-BOOTSTRAP

-JAVASCRIPT  
-REACT JS  
-NEXT JS  
-REDUX

-REACT NATIVE  
-EXPO

-GRAPHQL  
-REST API  
-FILEZILLA  
-POSTMAN

-GIT  
-GITHUB

-JIRA  
-BITBUCKET  
-CONFLUENCE

### Experience

#### January - June 2025 - Sellibra

Frontend Developer - Fulltime

- Developed and maintained a scalable web application using Next.js, Tailwind CSS, and Shadcn UI components, serving approximately 300 active users.
- Enabled product discovery, filtering, and detailed information retrieval across global marketplaces.
- Collaborated with cross-functional teams using Bitbucket, Jira, and Confluence for efficient project management and communication.
- Integrated data services via Apollo GraphQL and REST APIs to ensure seamless data flow.
- Implemented Stripe payment gateway for secure and reliable transactions.
- Utilized AWS services for hosting and deployment, ensuring high availability and scalability.
- Participated in daily stand-ups to maintain team alignment and timely progress.

#### June 2025 - Uzm. Diyetisyen Site

Frontend Developer - Freelance

- Developed a modern, responsive, and SEO-optimized website for a professional dietitian using Next.js and Tailwind CSS.
- Built client-facing pages including Home, About, Recipes, and Contact to improve accessibility and user engagement.
- Integrated Cloudinary for efficient media management and MongoDB for flexible and scalable data storage.
- Implemented EmailJS to handle contact form submissions directly through email.
- Designed and developed a custom admin panel for managing blog posts, recipes, and client testimonials.
- Delivered a seamless experience across all devices with fully responsive layout and accessibility best practices.

#### June 2025 - Adım Hareket

Frontend Developer - Freelance

- Developed a modern and manageable website for a company offering movement education and recreational activities for children.
- Built an SEO-friendly and mobile-responsive frontend using Next.js, Tailwind CSS.
- Designed a user-friendly layout with key pages including services, gallery, and contact.
- Integrated EmailJS to forward contact form submissions directly to email.

#### May 2025 - Maskot Diyari

Frontend Developer - Freelance

- Developed a professional Next.js-based website for Maskot Diyari, a company specializing in mascot production.
- The site includes a landing page, services, gallery, contact form, and more.
- Messages from the contact form are sent directly via email.
- Turkish and English language selection is available.
- An admin panel was developed for content management, with all data stored in MongoDB.
- Images are managed through Cloudinary, and the site is fully responsive.

#### April 2025 - Biz Yanındayız

Frontend Developer - Freelance

- Biz Yanındayız is a digital platform that makes healthcare services accessible for everyone.
- As part of this project, two interconnected landing pages were developed for corporate partners and individual users.
- The site includes informative sections such as services, how it works, FAQ, contact, and support center pages.
- Developed with Next.js, the platform also features a contact form and social media links.
- The entire layout is fully responsive.

#### February - December 2024 - Birliko

Frontend Developer - Fulltime

- Managed frontend team in the successful development of two websites using React.js and two mobile applications using React Native and Expo.
- Actively contributed throughout project lifecycle phases including analysis, design, development, testing, and deployment.
- Translated UI/UX designs into functional software requirements and created user-friendly interfaces.
- Integrated payment systems and video conferencing infrastructures.
- Led project management efforts ensuring effective team coordination and on-time delivery with high quality standards.
- Made strategic decisions to improve development processes and enhance productivity.
- Provided technical guidance and support to team members through detailed contributions to technical decisions and implementations.

#### October 2024 - Belediyen Yanında

Front-End Web/Mobile Developer

- Designed and developed the Belediyen Yanında website using HTML, CSS, and JavaScript.
- Developed a mobile application for iOS and Android platforms using React Native.
- Implemented modern, user-friendly interfaces based on provided design templates.
- Applied responsive design principles to ensure seamless functionality across devices.
- Performed performance optimizations and implemented SEO-friendly coding to enhance accessibility and speed.

#### October - February 2023-2024 - Healthcare Services

Frontend Web Development - Fulltime

- Developed a responsive web application ensuring seamless usability across various devices.
- Utilized ReactJS for frontend development and integrated numerous npm packages to enhance functionality.
- Created user-friendly and visually appealing interfaces using SCSS and Bootstrap.
- Implemented landing pages and interactive elements to provide a dynamic user experience.
- Designed and integrated comprehensive admin panels for doctors and administrators.
- Incorporated graphical representations and data tables for effective presentation of healthcare information.

**September - November 2023 - E-Commerce Project**

Frontend Web Development - United State |Remote | Intern

- Applied agile and scrum methodologies in a React-based project.
- As team leader, ensured quick and reliable resolution of team issues, fostering high collaboration to achieve results.
- Actively contributed in the design phase and seamlessly implemented API services.
- Used NPM to manage project dependencies, enhancing component availability and efficiency.
- Created responsive layouts suitable for all devices using media queries and Bootstrap.
- Utilized SCSS for styling purposes.

---

**June - 2023 - Cozum Ilacnama**

Freelance Website Design and Development - Freelance

- Designed and developed a custom website for a pest control company.
- The website included a showcase page presenting the company's services, detailed information about offered services, and contact details.

---

**June - 2023 - Renn Home**

Freelance Website Design and Development - Freelance

- Independently developed a website for Renn Home, a furniture company.
- The website functioned as a virtual showroom showcasing various furniture categories.
- Utilized SCSS for styling and incorporated Bootstrap to ensure responsive design.
- Featured high-quality product images and detailed descriptions, providing visitors a comprehensive user experience.
